

iServe Fall 2022 Partner Projects

Project #1- Southwestern Veterans Center, Dept. of Military & Veteran Affairs

Need: 1-4 students

Looking for: Web Design/Development, Mobile App Design/Development, Database Design/Update, Database Management and SQL

Skills Required: Public Speaking, Interpersonal Communication, Adaptability, Critical Observation, Conflict Resolution

Project Summary: Students needed to create a digital ordering system for residents of a long-term care facility so they can submit orders without having to physically travel to store.

Please note: Proof of Covid vaccination is required to enter the facility.

Project #2- Project Love Coalition

Need: 3-6 students

Looking for: Mobile App Development, Database Design/Update, Database Management and SQL, Social Media

Skills Required: Adaptability, Critical Observation

Project Summary: Project Love Coalition is looking for students to develop an email database to organize contacts in various groups, regain control of a hacked social media account, and create a functional mobile app.

Project #3- Friends of South Side Park

Need: 3 students

Looking for: Social Media

Skills Required: Interpersonal Communication, Inquisition, Critical Observation

Project Summary: Students who can create a digital archive of organizational materials from previous Goat Fests, including creating a database of stakeholders, a timeline of activities, and a summary of insights gained from former organizers. An optional activity includes reviewing data from social media campaigns and other related media.

Project #4- Greater Wilkinsburg Community Advancement Association

Need: 2-3 students

Looking for: Web Design/Development, Database Management and SQL, Social Media

Skills Required: Interpersonal Communication, Adaptability, Critical Observation

Project Summary: The GWCAA needs assistance with e-marketing and communications (website and social media) to ensure people of all means and identities have access to the opportunities and resources the organization and its partners offer.

Project #5- re:Bloom

Need: 1 student

Looking for: Social Media

Skills Required: Interpersonal Communication, Adaptability, Critical Observation, SEO (preferred, but not required)

Project Summary: re:Bloom is looking for a student to continue a 'Tips & Tricks' series on social media (Instagram, LinkedIn, and Facebook), while working with an existing brand kit and media calendar. Assistance is needed to increase SEO and online engagement.

Project #6- AgeWell at the Jewish Community Center

Need: 2-3 students

Looking for: Other: Technology coaches to work individually and in small groups with older adults

Skills Required: Public Speaking, Interpersonal Communication, Inquisition, Adaptability, Critical Observation, Conflict Resolution

Project Summary: AgeWell is looking for students to serve as 'tech tutors' (in-person or remote) to address the digital divide and assist older adults.

Please note: Security and Child Abuse Clearances (paid for by Pitt) and proof of Covid vaccination is required to enter the facility.
